

EAFPS Fellowships

Fazil Apaydin, MD

Professor of Otorhinolaryngology
Ege University
Bornova-Izmir 35100
Turkey
email: fazil.apaydin@gmail.com
website: www.fazilapaydin.com

AFFILIATION:

1. Ege University Hospital, Izmir, Turkey
2. Solo practitioner, Izmir, Turkey
3. Private Gazi Hospital, Izmir, Turkey

OPERATIVE EXPOSURE:

- Aesthetic rhinoplasty and nasal reconstruction
- Otoplasty
- Skin cancer and skin cancer reconstruction
- Facial nerve paralysis rehabilitation
- Aesthetic rejuvenation procedures (noninvasive and invasive)

ADDITIONAL INFORMATION:

As a full-time professor working at a big University Hospital, Dr. Apaydin spends 5 weekdays starting from 08:30 to 16:00 there. He goes to his private office afterwards for seeing private patients and to the private hospital to operate private patients. He works privately on Saturdays as well. The applicant will be able to see a lot of rhinoplasty procedures and some facial reconstruction procedures at the university clinic. The aesthetic rhinoplasty and rejuvenation procedures are usually done in the private setting where invasive procedures such as blepharoplasty, facelift are not in high numbers.

Dr Natarajan Balaji, MBBS, FRCS, DLORCS, FRCS (OTO-HNS), MBA, EBFPRS

University Hospital of Monklands
Monkscourt Ave
Airdrie ML6 0JS, Glasgow
Scotland, UK,
email: nbalajient@yahoo.com

AFFILIATION:

1. NHS Lanarkshire: University Hospital Monklands, University Hospital Hairmyers
2. University of Glasgow

OPERATIVE EXPOSURE:

- Facial plastic reconstructive surgery
 - Open and closed approach structural and cosmetic septorhinoplasty techniques
 - Open approach extensive tip-plasty techniques
 - Complex nasal reconstruction

- Otoplasty techniques
- Reconstruction of traumatic nasal defects.
- Reconstruction of traumatic defects of pinna
- Management of benign and malignant facial skin lesions – Resection and reconstruction with local and advanced flaps
- Advanced rhinology
 - Endoscopic and Open techniques in management of benign and malignant sinonasal disease
- Management of benign and malignant cancer conditions of the head and neck

ADDITIONAL INFORMATION:

Prior approval by the NHS Education for Scotland Deanery is required.

The applicant will be predominately based at the University Hospital Monklands where most of the operating sessions take place. This is a busy facial plastic practice (tertiary referral center) with approximately 90-100 cases of open, and 20-30 internal Septorhinoplasties performed annually. Majority of the nasal deformities encountered are of a traumatic aetiology resulting in a complex cohort of patients requiring a variety of techniques in order to achieve a satisfactory functional and aesthetic outcome. A busy outpatient service provides extensive exposure to a wide variety of rhinological and facial plastic pathologies. There is also an opportunity to see major facial resections and reconstructions. The unit also does endoscopic and open nasal and sinus surgery including tumour surgery.

Ozcan Cakmak, MD, Prof

Facial Plastic Surgeon (European Board)

FACEISTANBUL

Bagdat Caddesi No: 201/10

Ciftehavuzlar, Kadikoy

Istanbul

Turkey

email: ozcan.cakmak@gmail.com

website: www.ozcancakmak.com

AFFILIATION:

Private Practice in FACEISTANBUL, Facial Plastic Surgery Clinic

OPERATIVE EXPOSURE:

- Aging face surgery
 - Facelift
 - Browlift
 - Midfacelift
 - Blepharoplasty
 - Fat injection
- Rhinoplasty
- Mentoplasty
- Otoplasty

ADDITIONAL INFORMATION:

The applicant exposes mainly aging face surgery and related cosmetic procedures (botox, filler, chemical peeling, dermabrasion, non-invasive rejuvenation modalities, etc.) and rhinoplasty in a private setting.

Holger G. Gassner, M.D.

email: secretary@drGassner.com

website: www.drgassner.com

AFFILIATION:

Clinical Professor
University of Regensburg, Germany

OPERATIVE EXPOSURE:

- Primary and revision rhinoplasty
- facial rejuvenation
- orbital rejuvenation
- facial and nasal reconstruction
- facial reanimation
- botox & fillers

ADDITIONAL INFORMATION:

The fellowship is primarily based in Regensburg. Surgery is also performed in Nuremberg, travel time is 1 hour. Further information about the practice and fellowship, see www.drgassner.com.

Koen Ingels

PO Box 9101
6500 HB Nijmegen
The Netherlands

email: Koen.ingels@radboudumc.nl

website:

www.aroundthenose.com

www.enfaceclinique.nl

www.radboudumc.nl/Zorg/Afdelingen/Keel-Neus-Oorheekunde/Pages/default.aspx

AFFILIATION:

1. Radboud University Medical Center, Department of Otorhinolaryngology
Philips van Leydenlaan 15
6525 TE Nijmegen
2. Mauritsklinieken / EnFace Clinique

OPERATIVE EXPOSURE:

Radboud University Medical Center:

- Facial reconstructive surgery including dermato-oncology
- Rhinoplasty
- Facial nerve rehabilitation
- Cleft lip and palate surgery

Mauritsklinieken / EnFace Clinique:

- esthetical practice and surgery:
 - Blepharoplasty
 - Brow lift
 - Cosmetic rhinoplasty
 - Injectables

ADDITIONAL INFORMATION:

We are a team of 4 board certified (IFFPRSS) Facial Plastic Surgeons working in a University Hospital and part time in a private practice (esthetical surgery). We train Dutch ENT-surgeons and a Dutch Fellow Facial Plastic Surgery. Observing is never a problem; gaining surgical experience is dependent of the observed skills of the applicant and of his/her willingness and talent to master Dutch language (a lot of patients speak English in the Netherlands).

Anil Joshi, FRCS (ORL-HNS), IBCFPRS and Alwyn D'Souza, FRCS, EBCFPRS

University Hospital Lewisham

London SE13 6LH

United Kingdom

email: aniljoshient@yahoo.com; londonfacialsurgery@gmail.com

website: <http://www.londonfacialsurgeons.com/>

AFFILIATION:

1. FRCS(ORL-HNS)
2. IBCFPRS, EBCFPRS

OPERATIVE EXPOSURE:

We offer a comprehensive fellowship programme for fellows of Europe and worldwide. This will be for a period of one year. This will be fully in line with the rules and formalities of the European Academy of Facial Plastic Surgery (EAFPS). This will be a hands on (scrub-in) fellowship with plenty of surgical opportunities for the fellows to hone their skills in all aspects of facial plastic surgery.

The fellow will be exposed to facial reconstruction for skin cancers, Rhinoplasty, Pinnoplasty, surgical (facelift and blepharoplasty) and non-surgical (botulinum neurotoxin and filler injections; laser; thread lifts etc.) facial rejuvenation. The fellows will be allowed to work both in public sector (NHS) as well as private. Fellows are encouraged to apply for funding through EAFPS fellowship programme. Unfunded positions are available and the prospective fellows are advised to arrange their funding. However, if the candidates are from the UK or the European Union and have eligibility to work in the UK, there are opportunities to take up locum jobs for out-of-hours on call covers in our university hospital and some of the local London hospitals. Candidates outside this position may have to pass the PLAB exams to follow such pattern. Candidates once successful through the interviews will have to undergo an Occupational Health check from our University Hospital before they start their fellowship.

We follow a timetable wherein the fellow will gain experience from two highly qualified and board certified facial plastic surgeons who are also a part of the committee of EAFPS.

In addition to clinical work, the fellows are expected to work heavily on research and be involved in publishing peer-reviewed articles. Fellows should attend the EAFPS annual meetings and other relevant meetings and are preferred to present papers in these meetings. Fellows in conjunction with EAFPS education board will have to undertake the Board certification examination at the end of a year of fellowship.

In addition to full fellowship, we also offer observerships and working visits.

ADDITIONAL INFORMATION:

We follow a timetable for the fellows that will help them gain a well rounded training in the field of facial plastic surgery.

Anil Joshi – AJ.

Alwyn D'Souza - ADS

Monday – AM and PM = Surgery at a Private Hospital with ADS

Tuesday (full day at University Hospital Lewisham, London) – AM – FPS clinic with AJ and ADS.

Mid day – dermatology clinic. PM – Surgery (along with Dermatology MDT).

Wednesday – AM and PM = Surgery with ADS

Thursday – Research (additional surgical sessions)

Friday – AM = Surgery with ADS (in Private). PM = Surgery with AJ (in University Hospital)

Saturday – AM = Additional clinic session (+/- laser sessions) at Private.

Peter JFM Lohuis MD PhD and Boris Filipović MD PhD

Boris Filipović, MD PhD

Trg J.F. Kennedyja 6b

Zagreb

Croatia

email: boris.filipovic@lf-medicalgroup.com

website: www.lf-medicalgroup.com

AFFILIATION:

1. Poliklinika Lohuis-Filipović Medical Group, Trg JF Kennedyya 6b, Zagreb, Croatia
2. University Hospital Sveti Duh, Ul. Sveti Duh 64, Zagreb, Croatia

OPERATIVE EXPOSURE:

1. In the clinic:
 - full scope aesthetic facial plastic surgery, including hair transplant, brow lift, facelift, eyelid surgery, otoplasty, rhinoplasty, neck lift, neuromodulation, fillers, and skin rejuvenation procedures
2. In the associated hospital:
 - facial plastic reconstructive surgery
 - skin cancer and skin cancer reconstruction
 - facial nerve rehabilitation
 - (reconstructive) oncological head and neck surgery

ADDITIONAL INFORMATION:

- Hands on, 12 months only
- Perfect English required
- One candidate is selected from several applicants
- Self-funded, but application for support funding EAFPS is stimulated (www.eafps.org)
- Doing the European Board exam at the end of the fellowship is obligatory

Dirk Jan Menger MD PhD and Tjasse Bruintjes MD PhD

email: d.j.mengers@gmail.com

website:

www.drmenger.nl

www.AdvancedRhinoplasty.nl

AFFILIATION:

1. University Medical Center Utrecht, The Netherlands
2. Gelre Hospital, Apeldoorn, The Netherlands

OPERATIVE EXPOSURE:

- Primary and revision rhinoplasty
- Nasal reconstruction
- Skin cancer and skin cancer reconstruction
- Facial plastic reconstructive surgery
- Otoplasty
- Blepharoplasty

ADDITIONAL INFORMATION:

- The fellowship is based in Utrecht, Apeldoorn and Hilversum, The Netherlands
- Hands on, 12 months only
- Perfect Dutch and English is required
- One candidate is selected from several applicants
- Doing the European Board exam at the end of the fellowship is obligatory

Eduardo Morera Serna

Hospital Universitario Son Espases
Carretera de Valldemossa 79
Palma de Mallorca 07120
Spain

email: e_morera@hotmail.com

AFFILIATION:

1. Hospital Universitario Son Espases.
2. Centro Policlínico Quirúrgico.
3. Complejo Hospitalario de Llevant

OPERATIVE EXPOSURE:

Facial plastic reconstructive surgery:

- Functional and aesthetic rhinoplasty 4-5 cases per week
- Otoplasty 2-3 cases per month.
- Oculoplastic procedures 2-3 cases per month.
- Other cosmetic procedures (facelift, subnasal lift, cervicoplasty, buccal fat pad removal, chin implants) 2-3 cases per month.
- Skin cancer treatment 2-3 cases per month.
- Facial reanimation 6-7 cases per year.

Ablative oncological head and neck surgery: 3-4 cases per week

ADDITIONAL INFORMATION:

The fellowship program will not be offered until January 2019 because we are having a trainee for the next two years, starting January 2017.

The participant will assist to Dr. Morera and Dr. Tomás cases in both their public and private activity.

J. Carlos Neves

Alameda dos Oceanos, 120
Parque das Nações - 1990-394
Lisbon
Portugal
+351 918660166
Email: jcneves@myface.pt
website: www.myface.pt; www.josecarlosneves.pt

AFFILIATION:

1. My Face - Clinica da Face (Hospital Lusíadas, Lisbon; Sanfil Medicina, Coimbra), Portugal
2. Hospital Universitario de Santa Maria, Lisbon, Portugal
3. IMO, Instituto de Microcirugia Ocular, Barcelona, Spain
4. Clinica Dr Mario Ferraz, Campinas, São Paulo, Brazil

MAIN OPERATIVE EXPOSURE:

- **Lisbon:** J. Carlos Neves, MD, IBCFPRS (Facial Plastic Surgeon)
 1. Surgical procedures: rhinoplasty (70% of the procedures); otoplasty; blepharoplasty; face lift; platysmoplasty; mentoplasty; lipofilling. average 12 procedures/week
 2. Aesthetic procedures: fillers; toxins; peelings
 3. Facial growth and dental-facial orthopaedics (Dr Silvia Martins Neves, MDM, MSc)
 4. Orthognatic surgery (Dr Sandra Ferreira, MD; Maxilo Facial Surgeon)
(Dr Carlos Neves cooperates with dermatology, general plastic and aesthetic medicine colleagues who additional procedures can be observed with)
- **Barcelona:** Ramon Medel, MD (Ophthalmologist, Oculoplastic Surgeon)
 1. Oculoplastics: general principles; eyelid rejuvenation; eyelid malpositions; eyelid reconstruction; midface lift; endoscopic brow lift; orbitofacial trauma; orbital surgery; lacrimal system; conjunctiva and ocular surface pathology
 2. Aesthetic procedures: fillers; toxins
- **Sao Paulo** Mario Ferraz, MD, IBCFPRS (Facial Plastic Surgeon; Craniofacial Surgeon)
 1. Surgical procedures: rhinoplasty (cosmetic, functional, revision, cleft lip rhinoplasty); nasal reconstruction; otoplasty; blepharoplasty; canthoplasty; aging face surgeries (facelift; brow lift); chin implants
 2. Non-surgical procedures: fillers; toxins

ADDITIONAL INFORMATION:

We aim to expose our fellows to a vast number of procedures that represent several fields in facial plastic surgery. Based on that goal we designed our 1 year fellowship programme in 3 different realities: Lisbon (8 months), Barcelona (2 months) and São Paulo (2 months).

Santdeep Paun, MD

St Bartholomew's and The Royal London Hospitals
London
United Kingdom
email: Spaun@me.com

AFFILIATION:

1. St Bartholomew's and The Royal London Hospitals
2. Queen Mary's University London

OPERATIVE EXPOSURE:

- Rhinoplasty/facial reconstructive surgery
- Oculoplastic surgery/post traumatic reconstruction

ADDITIONAL INFORMATION:

The applicant incorporates two distinct settings:

- Private teaching hospital (CUF Infante Santo Hospital)
- Private office (Clínica do Nariz e Face)

All candidates would need GMC registration. There will be hands on exposure to septorhinoplasty procedures, post traumatic facial reconstruction including multidisciplinary working within a complex facial trauma group. The candidate will be exposed to facial nerve reanimation procedures and will be asked to attend joint oculoplastic and facial trauma reconstruction clinics. There will be the opportunity to work with other allied specialists including OMFS and oculoplastics.

There are residents within the department so operative work will be shared appropriately between the fellow and resident.

The fellow would also be able to assist in the private sector cases performed.

There will be multiple opportunities for clinical research and to teach junior surgeons and in a rhinoplasty and facial aesthetic course.

Ullas Raghavan FRCS(Glasg), FRCSEd, FRCS(ORL-HNS)

Doncaster Royal Infirmary
Armthorpe Road
Doncaster DN2 5LT
United Kingdom
email: ullasraghavanent@gmail.com
website: www.facialcosmeticsurgeryclinic.com

AFFILIATION:

1. Doncaster Royal Infirmary
2. Pall Mall Medical Manchester
3. Woodthorpe Hospital, Nottingham

OPERATIVE EXPOSURE:

- Facial aesthetic surgery
- Skin cancer reconstruction
- Facial Palsy management
- Non surgical aesthetic treatments

ADDITIONAL INFORMATION:

Will need GMC registration for hands on experience. Private aesthetic treatments can be observed.

Prof. Dr. Frank Riedel and Priv.-Doz. Dr. Gregor Bran

IFFPRSS board-certified facial plastic surgeons

HNO-Zentrum Rhein-Neckar

Stresemannstr. 22

D-68165 Mannheim

Deutschland

email: info@hno-zentrum-rheinneckar.de

website: www.hno-zentrum-rheinneckar.de

AFFILIATION:

1. HNO-Zentrum Rhein-Neckar, Surgical Center
2. Theresienkrankenhaus Mannheim
3. Ethianum Heidelberg, Private Hospital
4. University Hospital Mannheim, University of Heidelberg

OPERATIVE EXPOSURE:

Main focus is RHINOPLASTY (>600 cases per year):

- primary aesthetic rhinoplasty
- revision rhionoplasty
- harvest of ear and rib cartilage
- innovative techniques (piezosurgery, platelet-rich plasma / fibrin, micro-fat etc.)

Aesthetic surgery:

- otoplasty
- cheek plasty
- Lip plasty
- Blepharoplasty
- Face lift (very small number)
- Botox/Filler

ADDITIONAL INFORMATION:

The observer/fellow will have the chance to be in the OR with one of the two surgeons every day, and will join them during consultations and post-op care. He/she will have the chance to perform scientific work within the field of facial plastic surgery.

Yves Saban, MD, PhM

31 avenue Jean Médecin

06000 Nice

France

+33 4 92 14 30 00

Email : yves.saban@gmail.com

AFFILIATION:

Clinique Saint Antoine, Nice, France

OPERATIVE EXPOSURE:

- Rhinoplasty
- Facial plastic surgery and skin cancer

ADDITIONAL INFORMATION:

Scrubbing and invasive patient contact in surgery. Attend for free anatomy courses and rhinoplasty courses that I organize. Contribution to scientific articles and book chapters.

Hesham Saleh, MBBCh, FRCS, FRCS (ORL-HNS)

Board certified in facial plastic surgery by the European and International Boards
Consultant Rhinologist/Facial Plastic Surgeon and Professor of Practice in Rhinology
Charing Cross & Royal Brompton Hospitals – Imperial College of Medicine
London
United Kingdom
email: h.saleh@imperial.ac.uk

AFFILIATION:

1. Charing Cross Hospital
2. London Clinic
3. Royal Brompton Hospital

OPERATIVE EXPOSURE:

- Rhinoplasty: Aesthetic and functional, primary and secondary. Both endonasal and open approach
- Endoscopic Sinus and Anterior Skull Base surgery

ADDITIONAL INFORMATION:

We are the largest subspecialty tertiary referral unit in the UK. The work involved is exclusively Rhinoplasty, Rhinology and Anterior Skull Base Surgery with an outpatient caseload of over 2000 patients per annum. The unit performs more 150 complex septorhinoplasties and 150 sinus/skull base procedures per year (Charing Cross Hospital) with no general ENT work. In addition, 150-200 private practice procedures can be observed by the fellow in the London Clinic. The fellowship is accredited by the Royal College of Surgeons Senior Clinical Fellowship Scheme.

The candidate is expected to participate in the management of patients in the outpatient clinics and operating theatre. He/she will work as a part of team comprising the supervisor, specialist registrars and Foundation Year (FY) doctors. He/she is also expected to participate in the ongoing research and will not participate in on call duties. At least three presentations and three peer-reviewed publications will

be expected in a twelve-month fellowship period. The appointee will also join in with the audit, clinical governance and teaching in the departments.

The fellowship starts every October and is advertised in <https://www.jobs.nhs.uk> in January/February of the same year. The candidate is expected to have obtained the Certificate of Completion of Training (CCT) in Otolaryngology or an equivalent recognized training program. Two referees of his/her supervisors must provide support letters before appointment. For overseas candidates a GMC registration must be obtained before starting the fellowship. Knowledge of research methodology and previous publications are desirable.

Dr C.H.M Stengs, MD PhD and I. van Rooy, MD

Rijnstate Hospital Arnhem
Wagnerlaan 55
6815 AD Arnhem
+31 26 3788888
email: cstengs@rijnstate.nl
website: www.facial-plastic-surgery.nl

AFFILIATION:

Rijnstate Hospital Arnhem, The Netherlands

MAIN OPERATIVE EXPOSURE:

- Facial plastic reconstructive surgery
- Aesthetic rhinoplasty and nasal reconstruction
- Otoplasty
- Skin cancer and skin cancer reconstruction
- Schisis corrections
- Feminisation operations

ADDITIONAL INFORMATION:

Rijnstate Hospital is one of the largest general hospital in the Netherlands with the full range of facial plastic surgery procedures. Also blepharoplasty and neurotoxins/fillers are performed.

E.J.C. Teunissen, MD

HagaZiekenhuis

Leyweg 275

2545 CH Den Haag

e-mail: kno@hagaziekenhuis.nl

AFFILIATION:

1. HagaZiekenhuis, Den Haag, The Netherlands
2. Medisch Centrum Haaglanden, location Westeinde, Den Haag, The Netherlands
3. Leids Universitair Medisch Centrum, Leiden, The Netherlands

OPERATIVE EXPOSURE:

- Aesthetic and reconstructive rhinoplasty
- Blepharoplasty
- Facelift and forehead lift
- Skin cancer and skin cancer reconstruction

ADDITIONAL INFORMATION:

The HagaZiekenhuis offers not only (revision) rhinoplasty but also parotidectomy and some skin surgery. A facial cleft team is incorporated in the children's department. The Westeinde Ziekenhuis mainly offers skin cancer surgery, but exposure to ablative head and neck surgery and reconstruction is possible. In the Leiden university hospital rhinoplasty and small numbers of facial paralysis reconstruction take place. In an additional private practice exposure to facelifts, blepharoplasty and injectables is possible.

<http://www.microtia.co.il>

AFFILIATION:

1. Department of Otolaryngology Head and Neck Surgery, The Chaim Sheba Medical Center, Tel-Hashomer, Israel
2. Sackler School of Medicine – Tel Aviv University, Israel

OPERATIVE EXPOSURE:

Facial Plastic and Reconstructive Surgery:

- Aesthetic rhinoplasty and revision rhinoplasty
- Nasal reconstruction
- Otoplasty
- Non-surgical neonate/newborn otoplasty
- Auricular reconstruction including atresioplasty
- Complex facial ablation and reconstruction
- Cleft lip and palate repair
- Other congenital facial defects reconstruction
- Liposuction and lipo-injection
- Botulinum toxin injection and fillers

ADDITIONAL INFORMATION:

The applicant incorporates two settings: a large tertiary hospital with the full range of facial plastic and reconstructive surgical procedures (mainly reconstructive) and private practice of facial plastic surgery (mainly aesthetic). Other aesthetic procedures like facelift and blepharoplasty are performed, but not in high numbers.
